DEPARTMENT OF STATISTICS CENSUS OFFICE THIRD POPULATION CENSUS 1983

ENUMERATOR'S RECORD OF VISITS

Province
Area Council
Rural Council / Town Council
Village Council / Qt. Council
Enumeration Area Serial No
Date Listing Started
Enumerator's Name:
Supervisor's Name:

GENERAL INSTRUCTUONS

- 1- This booklet is to serve as a record of your enumeration. It is designed to assist you in ensuring that you do not miss any house or any household in your Enumeration Area during the period of enumeration.
- 2- List buildings in the order of your visit (e.g. in a serpentine order) whether or not you find anybody in the building.
- 3- Use one line (ie. one row of the Visitation Record) for each house, compound..et
- 4- If you are working in a rural area and your E.A. is composed of more than one village, you must complete the listing of houses, compounds ...etc in one village and enumerate the people there before proceeding on to the next village.
- 5- Start a new page for each village within your E.A. but continue with the serial numbering of houses.
- 6- Details in fields 1,2 and 3 should be entered during the listing of houses operation while fields 4,5,6 and 7 should be completed after enumeration in each house However, fields 5 and 6 should be filled out before you leave a house or compound whether enumeration has been completed or not.
- 7- If on your first visit to a house (after the listing of building operation) you do not find anybody, enquire from neighbours whether anybody slept in the house on census Night. If no body slept in the house then write down "EMPTY" in field (7) against the serial number of the building and put (-) in the space provided for fields 4,5 and 6.

HOW TO FILL OUT THE ENUMERATOR'S RECORD OF VISITS

Before you start recording details on the inside pages you should record the following entries on the front page of the booklet:-

- The geographical identifying particulars in the space provided for :
 - a) The province.
 - b) The Area council.
 - c) Rural or Town council.
 - d) Village council (in rural areas) or Q uarter council (in urban areas).
- Write in the space provided the serial number of the E.A.
- Specify in the space provided the date you started your actual house listing i.e. when you started making entries in the inside pages of this booklet.
- Write your full name in the space provided.
- Write also in full the name of your supervisor.
- On top of each questionnaire write down the name of the Village or Quarter council. If you enter name of a village council you should write down the name of the village also in the space provided.

The fields provided in the inside pages of this booklet should be completed as follows:-

FIELD (1):-

Enter the serial number of each house or compound or structure starting from OO1, OO2, ...etc. Continue this series of numbers throughout the E.A. irrespective of change in village. This means that you SHOULD NOT START AGAIN FROM OO1 WHEN YOU MOVE TO A NEW VILLAGE IN THE SAME E.A. The last serial number (for the last building listed by you) in the E.A. should therfore be equal to number of buildings or structures and locations of homeless persons in the whole of your E.A.

FIELD (2):-

Enter in this field the serial number put by the listers during the listing operation which covered the urban areas in December 1982. In rural areas and in towns which are not covered by such an exercise put (-) in space provided. FIELD (3):-

Enter name of the building i.e. Z ahrah Hotel, Banat Health Centre, or name of the occupant of the house.

FIELD (4):-

Enter in this field the total number of households in each house or compound. This should only be done after you have enumerated every person in the house or compound.

FIELD (5) (6):-

In field (5) you should record whether enumeration has been completed or not in this house or compound by writing "Yes" or "No". Enter "Yes" only after completing enumeration of all households in the house. If you enter "NO" you are expected to enter the date you expect to call back. Use call -back cards to specify the date and time you will call back and make sure that you honour such a date.

FIELD (7):-

In this field you should record all cases or problems which require special treatment or reference to your Field supervisor. You may also write any general remarks you will like to make about that particular house or compound.
