Instructions for self-completion

The questionnaires have to be filled in by using a ball-pen in readable way. The responses to the questions should be given according to the choices by ticking an X-mark in a box, writing numerals in constrained boxes or writing text in framed boxes. However, you must not write in the boxes framed by broken lines!

Only those questions are discussed here for which, in our opinion, you may need more explanation to answer them, and it's not been included on the questionnaire itself. The questions are referred by their respective numbers. Should any questions occur that you are uncertain to answer please consult with the enumerator.

Completion of the Dwelling Questionnaire

2. In the case of buildings used without usage permit the year of construction is considered to be the date when the first occupant moved into the house. You have to mark the year or period of reconstruction if the main construction elements of the building have been changed (e.g. replacement of ceiling occurred, main walls of the building were opened).

7. A room is considered as a place bigger than 4 m² with door and window, and used for daily residence or sleeping. Consulting rooms, offices, workshops, etc., as well as a hall and a dining-room with a window are also considered as rooms. Places joining rooms through a hatch without door (e.g. alcove, dining-box) must not be considered as a separate room, it should be counted in together with a room or kitchen instead.

11. The response is PB-gas from container if a system serves one or more dwellings or houses through a local pipeline by using this container.

12. The heating is individual if the places of the dwelling are heated separately by oven, gas-heater, etc.

Completion of the Person Questionnaire

4.1 and 5.1 The response relates to the registered address independently of whether or not you live in that dwelling.

7.1 Change of street name, house number or any change in the public administration (e.g. unification or separation of localities) must not be considered as change of residence address.

7.2 You have to give the address of the dwelling where you lived first time in your life (i.e. to where you were brought home by your mother from the hospital, maternity centre).

8. In marking the marital status the legal (de jure) status is the basis.

9.1–9.5 Number of legal marriages apply here. (If applicable you have to disregard the number of cohabitations.) If you had more than two marriages you have to write the data of the latest one in the last row.

10. In cohabitation it is not necessary for the partners to live in common dwelling in this respect.

11. You have to consider those children who live somewhere else, in another family or under state care, moved or died. You must not consider adopted or foster-child.

12.1–12.6 All educational qualifications have to be taken into account. It is not enough if you give the highest level one only. You must not write in courses. You must not make difference between qualifications obtained via regular or non-regular form of education (evening or mail course, distance teaching, private).

12.1 The number of classes (years) must not be converted into the current education system. Currently someone goes to school if he/she is enrolled for the 2000/2001 school year in one of the listed types of school.

12.4, 12.5 and 12.6 Only the completed qualifications should be written in. If there's not sufficient space to list all your qualifications (supposing you have more than one certificates, diplomas, etc.) then please fill in the details of the highest level one in each category. If you have more certificates at the same level the data of the one obtained first are to be recorded.

13. Please mark three boxes maximum which relate to a contribution to your livelihood. If you have regular income from work (e.g. you are employed) or you worked at least one hour during the week preceding the enumeration please mark the box code 10. All activities providing income (salary, fee, etc. or compensation in kind) apply here.

15.1 Do not use general terms (e.g. civil servant, public official, pedagogue, entrepreneur, unskilled worker, administrator).

15.3 If you have work contract you have to write in those hours which are put down in the contract. If you are self-employed then you have to write in those hours which are usually necessary to do a given work.

17.1 You have to fill in the registered name, main activity and address of the enterprise or organisation at which you carry on your occupation in question 15.1.

17.2 Fill in your enterprise or organisation workplace where you actually work at (factory, shop, office, etc.)

18.1 Please answer the question on agricultural activity, regardless of the mode you carried it out (main job, secondary job, occasional work).

19.1 You may answer the question as Yes, only if you were actively looking for a job within the last 4 weeks.

22. Take into account those languages which you understand or you are able to make yourself understood.

25.1 A person is considered as handicapped or disabled is if he/she has such physical, mental or other deficiencies which hamper him/her in the normal and usual way of living.
