#### A message to all Canadians . . . .

Every five years Canada takes a census -a national stock-taking of its people and their housing. From the information it provides, we, as a nation, are better equipped to meet the many challenges facing us at every level, national, regional and local.

The answers you give, when compiled into statistics, are used in determining economic and social policies, planning industrial development, and estimating needs for schools, roads and many other public services.

Population figures are used to determine electoral district boundaries, and to calculate per capita grants to provinces and municipalities. For every person who does not initially respond, additional funds must be spent on follow-up procedures. The failure to count yourself in could result in the loss of revenue to your own community.

The Statistics Act, under which the census is carried out, not only defines your obligation to co-operate, but ensures that the information you provide will be kept confidential and used only for the purposes of that Act.

Your co-operation is essential. Please do your part by completing this questionnaire promptly, as of June 3, 1981, in accordance with the instructions provided.

Thank you for your co-operation.

#### **Ouestion Guidelines**

**Question 1.** Refer to the instructions adjacent to Question 1 when considering whom to (or not to) include as members of your household. If you have doubts as to whether a person should be listed, enter the person's name and the reason in the space provided in Question 9.

If there are more than six persons in your household and you do not have a second questionnaire, note this in the "Comments" section of your questionnaire, complete the questionnaire for six persons in your household and return as instructed. A Census Representative will contact you later with an additional questionnaire.

**Question 2.** To enable us to identify family groups within the household, it is necessary to select a reference person (Person 1), and to state the relationship of each household member to that person. For example, if John Smith lives with his father Thomas Smith, and Thomas Smith has been entered as Person 1, John Smith would mark "Son or daughter of Person 1".

There may be a member or members of your household whose relationship to Person 1 is not described in Question 2. In such cases, mark either "Other relative of Person 1" or "Other non-relative", and also print the exact relationship to Person 1 in the space provided.

"Other relative" includes persons such as uncles, aunts, cousins, grandfathers, grandmothers, and so on. "Other non-relative" refers to household members who are not related to Person 1 by blood, marriage, adoption or common-law. Some examples are employee's wife, employee's daughter, room-mate's son, landlord, and so on.

The term "common-law", as used in "Common-law partner of Person 1" or as may be used to describe any other such partnership in the household (for example, "Lodger's common-law partner"), should be interpreted as applying to any case of a couple living together in this type of union. Note that stepchildren, adopted children, and children of a commonlaw partner should be considered as sons and daughters. Foster children, wards and guardianship children who are not related to Person 1 by blood, marriage, adoption or common-law should be listed as lodgers.

**Question 5.** Mark "Now married" if you have a husband or wife who is now living, even if you are temporarily living apart because one of you is employed away from home, hospitalized, etc., but not if you are actually separated or have obtained a divorce.

For census purposes, couples living in a common-law type of arrangement are considered as "Now married", regardless of their legal marital status.

Mark "Separated" if you are separated from your husband or wife due to causes such as desertion or marriage breakdown, or because you no longer want to live together, provided that no divorce has been obtained.

Mark "Divorced" if you have obtained a divorce and have not remarried.

**Question 6.** You must still understand the language you report in this question. For infants, report the **first** language they are or will be learning.

**Question 8.** If your household has more than six persons you will require more than one questionnaire. Please see the guideline for Question 1.

If you are using more than one questionnaire, please answer this question on the first questionnaire only.

**Question 9.** If you have difficulty determining if a person should be included on your questionnaire, please refer to the WHOM TO INCLUDE item in the column adjacent to Question 1.

#### **Question 11. Special cases**

Mark "Owned" if the dwelling you occupy is owned or being bought by you and/or a member of this household even if (a) it is situated on rented or leased land or (b) it is part of a condominium (whether registered or unregistered). For census purposes, a **condominium** is a multi-unit residential complex in which dwellings are owned individually while land is held in joint ownership with others.

Mark "Rented" in all other cases even if the dwelling you occupy is (a) provided without cash rent or at a reduced rent, such as a clergyman's residence, a superintendent's dwelling in an apartment building, etc., or is (b) part of a co-operative. For census purposes, in a **co-operative** all members jointly own the co-operative and occupy their dwelling units under a lease agreement.

#### Question 12.

#### Single and semi-detached house

If you live in what is referred to as a "linked home" (a single house which is not attached to any other dwelling above ground, but is attached below ground), mark "Single house".

#### Duplex and apartment

Two dwellings, one above the other, attached to other dwellings are to be considered as apartments and not as duplexes.

#### Apartment

Do not count as storeys floors that are used solely for parking, storage or laundry and recreation facilities.

If you are in doubt concerning the number of storeys in an apartment building, mark "Apartment in a building that has five or more storeys" if there is at least one passenger elevator in the building. If there is no passenger elevator in the building, mark "Apartment in a building that has less than five storeys".
